#### ATTITUDE TO MORTGAGE

You prefer to accumulate savings to repay your mortgage when it is due. You understand there is a risk that your savings may not be sufficient to do so.

You prefer to have the certainty that your mortgage loan is repaid at the end of the term. This means contracting a repayment mortgage that is designed to use each monthly payment to pay interest and pay back part of the capital outstanding. If you keep up your payments your entire loan will be repaid in full at the end of the mortgage term.

You are not concerned with repaying the mortgage as you intend to sell the property before the end of the mortgage term and will clear the outstanding mortgage from the sale proceeds.
